

The ‘Bellevue’ Ferris wheel offers an impressive view over the festively decorated Europa-Park

# Europa-Park starts into the 23. Winter season

November 28, 2024

From 30. November 2024 until 12. January 2025 (except 24/25. December), Europa-Park is putting its magical winter wardrobe on and invites you to enjoy unforgettable experiences during the most contemplative time of the year. The 17 European themed areas are transformed into an enchanting winter wonderland, with over 3,500 snow-covered fir trees lining the paths. Around 70 members of the press have already been able to experience the Christmas atmosphere at Europa-Park together with the owner family Mack. During their winter journey of discovery, they marvelled at the impressive performances of the ‘Circus Revue’ and were enchanted by the artistic world of the famous illustrator in this year’s winter exhibition ‘Janosch at Europa-Park’. This year's programme was rounded off with an exclusive concert by the 4 DSDS (German music competition television series) finalists from this year's season.

There are numerous other highlights to discover at Europa-Park during the winter season: from the spectacular ice show 'Surpr'Ice presents a Christmas Dream' to impressive views from the 'Bellevue' Ferris wheel. Right next to it, the cosy Erdinger Hütt'n invites you to warm up with a delicious Kaiserschmarrn. At the 'Himmelspforten' post office in England, children can marvel at everything from the nativity scene to Santa's gift factory and hand over their wishes. The Christmas market in 'Ireland - Children's World' exudes a special Christmas atmosphere with its nostalgic charm. For those looking for more thrills, the spectacular 'Voltron Nevera powered by Rimac' rollercoaster awaits in the Croatian themed area. With speeds of up to 100 km/h and seven inversions, passengers experience a thrilling adventure as they hurtle through the Croatian countryside - a must for any adrenaline junkie.

For those seeking relaxation, the Rulantica water world offers a wide range of wellness options. In the exclusive 'Hyggedal' relaxation and sauna area, a calming atmosphere invites you to linger. The atmospherically illuminated artificial ice rink in front of the 'Bubba Svens' restaurant in the 'Krønasår' hotel is the perfect end to an eventful day.
