

David Banda together with girlfriend Maria Atuesta in front of the rollercoaster "Voltron Nevera powered by Rimac"

David Banda at Europa-Park

July 30, 2024

Musician David Banda, son of pop star Madonna, is currently travelling through Europe: long car journeys and flights are inevitable. Germany's largest theme park however was a less stressful experience for him. There he was able to explore the continent in just one day and experience plenty of fun and action.

In the Icelandic themed area, he raced through rugged rocky landscapes on the catapult coaster "blue fire Megacoaster", in the French themed area he experienced high-speed flights on the "Silver Star" steel rollercoaster and in the Greek themed area he refreshed himself on the water ride "Poseidon". His

highlight: a ride on "Voltron Nevera powered by Rimac" through the new Croatian themed area. Afterwards, he was able to enjoy the flair of the Adriatic coast on the large market square. en
Marktplatz genießen.
