

A new milestone for Silver Lake City: Riverside Western Lodge officially opens

June 18, 2026

With the official opening of the Riverside Western Lodge, Silver Lake City at the Europa-Park Resort has gained yet another highlight: The Riverside Western Lodge expands the Western town by 119 rooms with a total of 532 beds and offers guests a comfortable overnight stay in the style of the American West. The area is complemented by its own brewery, 'Silver Lake Brewery', the 'Wild West Store', the new YULLBE GO venue, the 'Chapel San Antonio', and the culinary offerings 'Grandpa Will's Hot Dogs' and 'Cold Rush Western Ice Creams'. With this, Silver Lake City is growing into an even more diverse destination for families, groups and short-break holidaymakers.

"With the Riverside Western Lodge, we are continuing the consistent development of Europa-Park Resort. Silver Lake City combines nature-oriented accommodation, authentic theming and modern leisure facilities in a very special way," says Roland Mack, owner of Europa-Park. "In almost 25 years, what started as a small site with colourful teepees and space for your own tent has grown into a fully-fledged resort in its own right, offering our guests even more options for a stay of several days."

“Silver Lake City is a project we’ve put our heart and soul into. After more than two years of construction, every detail is designed to help our guests and visitors immerse themselves in another world,” explains Ann-Kathrin Mack, Managing Partner of Europa-Park.

The Mack family officially opens the Riverside Western Lodge in Silver Lake City with a ribbon-cutting ceremony
