

Prince Albert and his family visit Europa-Park

Monaco is coming to Europa-Park

In 2026, Monaco will become the 18th themed area at Europa-Park. The preview centre in the Silver Star Hall will already give exciting insights into the legendary Grand Prix from 2025

March 12, 2025

In 2026, the Principality of Monaco will become the 18th themed area at Europa-Park, joining countries such as France, Italy, Spain, Portugal, Switzerland as well as England Ireland. From March 2025, a preview centre will be set up in the Silver Star Hall to give visitors an exclusive taste of this unique world.

Inspired by the legendary atmosphere of the Monaco Grand Prix, this new themed area will showcase the many facets that make the Principality world famous: Its emblematic buildings, its famous casino, its marinas, the Mediterranean landscapes, culture, gastronomy, and its picturesque streets. Monaco, the 'Jewel of the French Riviera', is a world-famous destination that perfectly combines history and modernity. An exceptional destination, it attracts lovers of fine dining, wellness and culture. Monaco is a world-famous brand, a symbol of excellence and prestige that characterises this new themed area.

H.S.H. Prince Albert II, a great admirer of Europa-Park: "For 50 years, Europa-Park has enchanted millions of families, and I too have had the pleasure of visiting it several times with my children. I am delighted about the new partnership between the Principality and this famous theme park, which will allow the creation of a Monegasque themed area in 2026. Monaco will thus become the 18th country to be represented there, enabling millions of visitors to learn more about our Principality and hopefully come here too".

In the future, Europa-Park guests will be able to experience the fascination of the prestigious Monaco Formula 1 Grand Prix - but also the luxury sights of the casino, the marinas and much more.

Europa-Park owner Roland Mack: "Monaco is one of the most fascinating countries in Europe. We will offer our visitors many attractive attractions related to the Principality. As early as 2025, the park will be full of Monaco flair. I am delighted with this extremely friendly and valuable cooperation with the Principality and Prince Albert".

The Prince and Sovereign is particularly committed to protecting the environment, especially the oceans and marine biodiversity. This commitment will also be reflected in the new Monegasque themed area.

From 2025, the Principality will be presented at Europa-Park with a series of exclusive events. An extraordinary exhibition of vehicles from the 'Collection des Voitures de S.A.S. le Prince de Monaco' will offer visitors a unique insight into Monaco's automotive heritage.

Another highlight: The magical atmosphere of the International Circus Festival of Monte Carlo comes to Europa-Park. This prestigious festival, chaired by Princess Stephanie, takes place every year in January in the Principality and brings together the greatest artists of the circus world to compete for the coveted 'Golden Clown' award. In 2025, Roland Mack was awarded the honorary title of 'Ambassador of Circus 2025'. To celebrate this art form, several new shows will be created in cooperation with Europa-Park and the artists of the Cirque de Monte-Carlo, which will immerse visitors in the fascinating world of the circus.

Thanks to this unique combination of tradition, innovation and excellence, Europa-Park and its Monegasque partners promise a unique and innovative addition to the park. Between the passion of motor sports, the magic of the circus and the timeless elegance of Monaco, this partnership celebrates the art of entertainment and excellence the Principality of Monaco is famous for.
